EDOCShelp@fcc.gov**Electronic Document Management System (EDOCS)**

EDOCS lets you search a database of [Daily Digest](#) entries for FCC documents that have been posted to the FCC web site. For advanced searches, use the fully-featured [EDOCS Advanced Search](#).

EDOCS Quick SearchDA/FCC- Release Date: mm/dd/yyyyTitle/Description: **About EDOCS**

EDOCS lets you search a database of Daily Digest entries for FCC documents posted to the FCC web site since March 1996. The query searches on words and numbers that appeared in the Daily Digest title and in the description for each document, not on the full text of each document. EDOCS has two search modules: quick and advanced.

Quick Search

The quick search lets you search by DA or FCC number, the release date, and the title or description. In this module, searches are set up so that the more fields you search on, the broader your query is and will result in more retrievals. The results of your query are displayed in reverse chronological order, with the title and a link to the document.

Advanced Search

The advanced search lets you search by a much larger number of criteria including citations, title, description, docket numbers, dates, as well as other numeric fields. The EDOCS advanced query works with any data element or combination of data elements. Using more search terms will give a more precise result and fewer retrievals. EDOCS advanced query results are displayed in reverse chronological order in three formats. The three formats are full record, condensed record, and Citator. The Citator format displays citations to the FCC Record Index, FCC Reports 2nd Series, and the Federal Register. The database contains citations for documents back to 1982.
